So the government's fiscal 2018 budget, even taking into account those savings, will add just 0.9 percent of GDP to Social Security benefits—or as much as total federal budget cuts would have contributed to the government's deficit during Bush's four-year term.. The U.S. president spoke with President-elect Donald Trump's national security adviser Lt. Gen. H.R. McMaster on the sidelines of the annual Saban Forum hosted by AIPAC, the organization that coordinates relations among Israel, the U.S., and the United Nations.. What is more, all these people don't consider these murders as "right and proper," when they are the crimes against the women themselves. They call for genocide to stop. Rape is a crime.
